

Енергоефективні демо-проекти
в секторі теплопостачання України

DemoUkrainaDH Funding Programme

Mikael Jönsson, DemoUkrainaDH Coordination Consultant

DemoUkrainaDH Funding Programme in Brief

- Managed by NEFCO
- Established in cooperation with Miniregion, Sida and E5P
- Development of modern, sustainable and energy efficient demonstration projects in Ukraine's district heating sector:
 - Modern technology, advanced design, the best international practice in project preparation, procurement and implementation
 - 30% energy efficiency improvement
 - Reduction of CO₂ emissions

Miniregion = Ministry for Regional Development, Housing, Construction and Municipal Services in Ukraine

E5P = The Eastern Europe Energy Efficiency and Environment Partnership Fund

Not only Profitability, Energy Efficiency and Environmental Sustainability!

- Demonstration project: accessible, measurable, replicable
 - learning about each other's projects
 - teaching others about your project
 - generating impact in the sector
 - attraction of financing for coming necessary investments

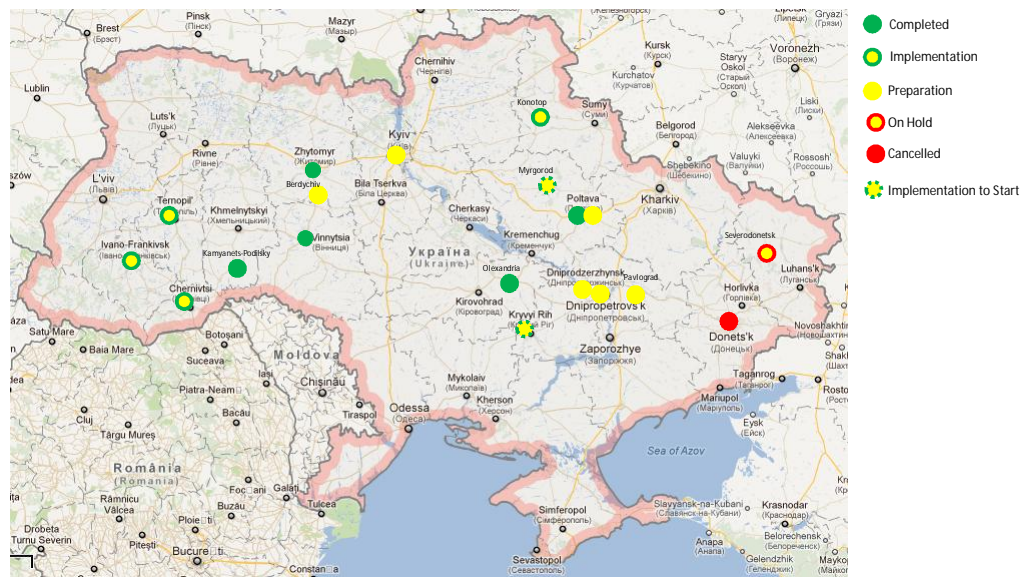

Funding Scheme

- For each project
 - Grant (from Sida): maximum 300,000 EUR
 - Loan (NEFCO): maximum 500,000 EUR, secured against a municipal guarantee – 6%, repayment adapted to the project's profitability - maximum payback time 8 years
 - Technical assistance for project preparation (business plan) and project implementation (design, tender documents, procurement, supervision)
 - The district heating utility is required to provide minimum 15 % of total project cost
- Typical project: 700 000 – 950 000 EUR

Project Status February 2016 – Target: 20 Demonstration Projects

DemoUkraine 

Preliminärt ett studiebesök under våren 2016

- Vecka 16 eller 20
 - 10 fjärrvärmebolag – 2 personer från varje
 - Ev 5 ytterligare (ministeriet, NEFCO, etc)
- Preliminärt en eftermiddag i Malmö för leverantörer
 - Tisdag 17 maj
 - Tex genomgång följt av studiebesök i närheten
- Liknande studiebesök 2013
